Date | Place

Session objectives

After this session you will be able to:

- Recognize how other countries are moving towards EAFm principles (case study - linking fisheries, environment and socio-economic considerations)
- Determine your country progress towards EAFm
- Identify your country challenges to achieving this

Case Study

Use selected case study

Discussion in groups

What key lessons (good or bad) for your country situation can you draw from the case study?

Activity 1

1. Each group receives a card that displays one EAFm principle (some groups may have to consider two principles).
2. In groups, discuss and score where you think your COUNTRY is along the continuum 0-5 for that principle (see Workbook p.5).
3. Using the lines set out on the floor, one representative for each principle paces out their score while holding the card.

Activity 2: in groups

1. Identify the **challenges** your country might face in moving towards EAFm
2. Write each challenge on a card. (**ONE** challenge per card)
3. Now identify **opportunities** your country may have in moving towards EAFm (and in meeting the above challenges).
4. Write each opportunity on a separate card
